

Contributions and Accountability Record

Group G15 - SWE 3409 Mobile Application Development - Assignment 1

Group code:	G15
Group verification code:	MOB-G15-7861
Group leader:	Munyaneza Ngabo
GitHub repository URL:	https://github.com/halime-tech/musanze_safe_market.git
Final commit hash:	af167f6d71264011a2429b3de73a47dff36aa1e8
Submission files:	MOB_A1_G15.zip, MOB_A1_G15_UIUX.pdf, MOB_A1_G15_CONTRIBUTIONS.pdf

Requirement to student mapping

Rubric criterion	Marks	Responsible	Key evidence
UI and UX PDF	15	Member 1	MOB_A1_G15_UIUX.pdf, pages 1 to 8
Layout and catalog	12	Member 2	Catalog screen, reusable cards, empty state
State and validation	13	Member 3	Form screen, validation.ts, validation tests
Navigation architecture	12	Member 3	Tabs, Records stack, typed routes, route map
Camera and gallery workflow	18	Member 4	Image picker hook, preview, permission tests
Review, reliability, code quality	5	Members 3 and 4	Review screen; end-to-end test log
Individual role evidence	10	All members	This record; commits; role mapping
Live individual verification	10	All members	Live role-related change or test
Peer accountability	5	All members	Confidential ratings
Total	100	75 team marks plus 25 individual marks	

Evidence index included in the package

- MOB_A1_G15.zip - complete Expo project (README.md, package.json, app.json, src/, assets/)
- MOB_A1_G15_UIUX.pdf - six to eight page UI and UX design document
- evidence/MOB_A1_G15_DEMO.mp4 - 90-second unedited demonstration video
- evidence/AI_USE.md - generative AI tool disclosure
- evidence/TEST_LOG.pdf - test log for the assessor verification sequence
- screenshots/ - required application evidence

Member Responsibilities and Evidence

Group G15 - roles assigned before coding - four-member group

Member 1 — Product and UX lead

Name / reg. no.:	Munyaneza Ngabo	Reg. no.:	25/27861
Responsibilities:	Scenario interpretation, user and task flow, wireframes, visual system, accessibility decisions, UI/UX PDF.		
Source files:	MOB_A1_G15_UIUX.pdf, src/theme/ (colors, typography, spacing), design exports		
Evidence produced:	UI/UX PDF pages owned; design rationale; at least two meaningful commits or versioned design exports.		
Branch:	main	Commit hashes:	af167f6d71264011a2429b3de73a47dff36aa1e8

Member 2 — Interface engineer

Name / reg. no.:	Obame Vidolina Ketsia	Reg. no.:	25/27671
Responsibilities:	Catalog screen with six fictional zones, reusable cards, status and priority chips, Flexbox behavior, empty state.		
Source files:	src/screens/CatalogScreen.tsx, src/components/ZoneCard.tsx, StatusChip.tsx, EmptyState.tsx, src/data/zones.ts		
Evidence produced:	Component files; narrow-screen proof; at least two meaningful commits.		
Branch:	main	Commit hashes:	af167f6d71264011a2429b3de73a47dff36aa1e8

Member 3 — State and navigation engineer

Name / reg. no.:	Halime Brahim Maye	Reg. no.:	25/28258
Responsibilities:	Validated inspection form, controlled inputs, bottom tabs, Records stack, typed route parameters, review screen.		
Source files:	src/screens/InspectionFormScreen.tsx, ReviewScreen.tsx, RecordsScreen.tsx, InspectionDetailsScreen.tsx, src/utils/validation.ts, src/navigation/		
Evidence produced:	Validation test evidence; route map; at least two meaningful commits.		
Branch:	main	Commit hashes:	af167f6d71264011a2429b3de73a47dff36aa1e8

Member 4 — Device integration, QA and release lead

Name / reg. no.:	Umubiyiye Marie Merci	Reg. no.:	26/38496
Responsibilities:	Camera and image picker, permission and cancellation handling, preview/replace/remove, end-to-end test; repository hygiene, README, manifest, demo video, final package.		
Source files:	src/hooks/useImagePicker.ts, src/components/ImagePreview.tsx, README.md, app.json, evidence/, screenshots/		
Evidence produced:	Device workflow files; test log; final commit record; package checklist; at least two meaningful commits.		
Branch:	main	Commit hashes:	af167f6d71264011a2429b3de73a47dff36aa1e8

Individual Declaration

Group G15 - signed by every member

Each member confirms that the work attributed to them above was authored by them, that they can explain and modify it during the live verification, and that they have read the institution's academic integrity rules.

Member 1 — Product and UX lead

Name (print): Munyaneza Ngabo

Reg. no.: 25/27861

Signature:

Date:

Member 2 — Interface engineer

Name (print): Obame Videlina Ketsia

Reg. no.: 25/27671

Signature:

Date:

Member 3 — State and navigation engineer

Name (print): Halime Brahim Maye

Reg. no.: 25/28258

Signature:
